Bush's Debate Experiences

By ABC News

October 2, 2000, 10:41 PM

Although Bush entered the presidential race untested on the national debate stage, he has proved to be a competent, if not spectacular debater. Throughout his short political career, Bush has benefited from low expectations of his debating abilities. The fact that he skipped no less than three GOP primary debates, and the fact that he was reluctant to agree to the Commission on Presidential Debates proposal, has done little to contradict the impression of a candidate uncomfortable with this unavoidable fact of campaign life.

Poll: Majority of Voters Say Clinton Won First 2016 Presidential Debate

A majority of likely voters who watched Monday night's presidential debate, or at least followed the coverage, said that Hillary Clinton won, according to a new NBC News-SurveyMonkey poll. Fifty-two percent of those polled thought Clinton won the debate, while only 21 percent believed Donald Trump prevailed. A remaining 26 percent said there were no winners.
